

- 1:1 scale design, cdr or pdf format only
- Keep at least 20mm clear space on the right side of the ribbon. Do not put any important graphics there (text, logos, etc.) - left side, clear space at least 80mm.
- All graphics in CMYK colors, must fit within a rectangle 900x20 mm or 900x25 mm. the background of the ribbon must be 1,5mm wider on each side of the ribbon. Do not change the width of the ribbon - 900x23mm and 900x28mm.
- Height of texts, logos, graphics, etc. on the ribbon
 - ribbon width 20 mm - maximum height 16 mm
 - ribbon width 25 mm - maximum height 20 mm
- Other side of the ribbon: all artwork mirrored vertically. Logos, texts mirrored horizontally (each object separately without changing its location on the project)
- If the background color of the ribbon is uniform, specify a color in PANTONE SOLID COATED (especially if the placed logos have PANTONE colors).
- 300 dpi bitmap resolution.

Important !

The comments in this pdf do not cover all cases regarding ribbon design. We approach each project individually, so we inform about applying corrections to the artwork to adapt them to the technical capabilities of our printers, so that the quality of our products is as high as possible.
